Access Control Solutions

Product Catalog

Cards and Tags

CRD

- Proximity ISO card
- Available in standard, with slot, and/or with printed number
- In-field programmability

Tag-1

- Drop shape proximity key holder
- In-field programmability
- Small, light-weight

Digital Keypads:

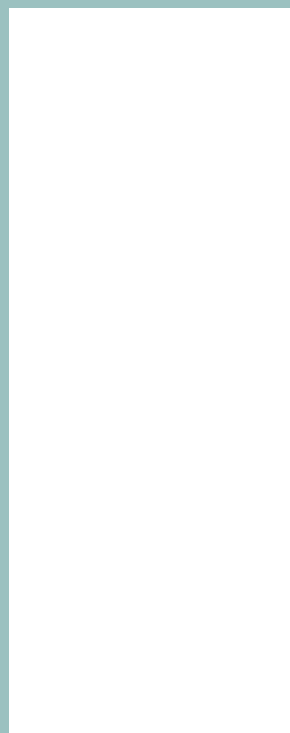

CL-80/8 Series Keypads

- Supports 56 user codes 1-8 digits
- Programmable ambush digit
- LED status indicators
- Request to Exit input/One relay output
- Flush/Surface mounting options
- CL-80 suitable for Indoor/outdoor usage (IP67)
- Optional tamper switch

CL-83 Series Vandal Resistant Keypads

- Up to 56 user codes with 1-8 Digits
- Programmable ambush digit
- LED status indicators
- Request to Exit input/ One relay output
- Wall/Mullion mounting options
- Metal construction/Resin potted (IP68)

About VisAccess

VisAccess offers comprehensive and cost-effective access control & attendance products ranging from single door to multi-door, multi-site solutions. VisAccess solutions give you the ability to regulate and monitor the movement of people anywhere within your premises to help protect your employees, property and company information. It also allows for optional integration with Visonic Technologies Elpas Real Time Location System (RTLs).

About Visonic Technologies (VT)

VT is a global leader in Active/Passive Radio Frequency Identification (RFID), RTLs and Access Control security products and safety solutions.

AXS-5/AXM-5

- Single unit reader/controller
- Supports up to 25 users
- Wall/Mullion mounting options
- Indoor/Outdoor usage (IP67)
- 6 proximity tags included

AXS-10

- Supports up to 300 users
- 4 button programmable keypad
- Expandable up to four doors
- Indoor/outdoor usage (IP67)
- AXSoft-10 Software included
- RDR-3 proximity reader included

Tag In A Bag

- Single unit keypad/controller
- Supports up to 250 users
- Two levels: Proximity/Pin recognition
- Supports 56 user codes (1-8 digits)
- Indoor/outdoor usage (IP67)

Two-Door Proximity Systems

AXS-100/200 Series

- Modular, standalone controller design
- Handles up to 5,000/20,000 cardholders
- Expandability across thousands of doors
- LCD keypad - 5 programming menus
- Access authorization levels
- Flexible time and holiday schedules
- Two anti-passback modes
- RS-232 Communication
- Optional 10/100 Ethernet
- VT recommends Visonic DA-5, SPY-RTE request to exit motion detectors for access installations

AXS-100 Kit Pro (U.S. only)

- One AXS-100 controller
- Two RDR-4 proximity readers
- RDR PXT USB desktop enrollment reader
- 10 proximity cards
- AXSalert-100 Software for 16 doors
- Includes 110VAC/16VAC transformer

AXS-100/200 Accessories

IOX-4 Expander Board

- Eight supervised inputs/Eight relay outputs
- Up to four boards per Controller
- Mounts inside controller cabinet

IPI-4 Adapter

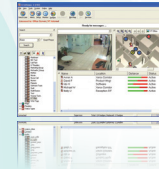

- RS-232 to 10/100 Ethernet Adapter
- Uses existing Ethernet/LAN networks
- Mounts inside controller cabinet

AXS-100/200 System Software

AXSalert-100 Software

- Supports up to 20,000 holders/256 doors
- Configurable cardholder/employee screens
- User-friendly graphical interface
- Supports card printing

Eiris Visibility and Security Software

- Supports up to 20,000 holders
- Multi-site installation
- Multi-client application
- Expandability across thousands of doors
- Configurable cardholder/employee screens
- User-friendly graphical interface
- Live CCTV alarm/event integration
- Card configuration and activity reports
- Supports card printing
- Optional visitor management
- Optional SDK for third party-integration
- SMS/Email reporting
- Optional Elpas RTLs hands-free access and escort integration

Proximity & Stripe Readers

RDR-1/2/3/4 Series Proximity Readers

- Read range: 5-10cm/2-4in
- Wall/Mullion mounting options
- Tri-color LED status indicator
- Indoor/outdoor usage (IP67)
- Compatibility dependent on controller type selected- AXS100/200/10, TIAB, 3rd party

RDK-4 Proximity Keypad Reader

- Three levels: Proximity/Pin code recognition
- Read range: 5-10cm/2-4 inch
- Up to 56 user codes with 1-8 Digits
- Tri-color LED status indicator
- Indoor/outdoor usage (IP67)
- AXS-100/200 compatible

RDV-4 Vandal Resistant Proximity Reader

- Read range: 5-10cm/2-4in
- Tri-color LED status indicator
- IP68-Metal construction/Resin potted
- AXS-100/200 compatible

RDC-3 Series Magnetic Stripe Reader

- Track 2
- Optional vandal resistant enclosure
- AXS-100/200/10 compatible
